

IN THE CLAIMS:

Please amend the claims as follows:

1. (Currently Amended) A pinwheel comprising:

a first axis, which supports a hub;
a plurality of protrusions connected to the hub and radially extending therefrom;
candy items attached to a plurality of the protrusions; ~~and~~
a handle disposed substantially transverse to the first axis to permit the hub, plurality of
protrusions and the candy items to rotate about the first axis; and
a ratchet mechanism, which holds the hub in a position.

2. (Original) The pinwheel as recited in claim 1, wherein the hub is formed into a figure or promotional item.

3. (Original) The pinwheel as recited in claim 1, wherein the hub includes a detachable figure or promotional item.

4. (Original) The pinwheel as recited in claim 1, wherein the first axis is provided by an axel connected to a platform to permit rotation about the first axis.

5. (Previously Presented) The pinwheel as recited in claim 4, further comprising a light connected to the platform for illuminating the hub and the candy items.

6. (Original) The pinwheel as recited in claim 1, wherein the protrusions form blades, which spin

the hub when the blades are placed in an air stream.

7. (Canceled)

8. (Original) The pinwheel as recited in claim 1, further comprising a motor for spinning the hub.

9. (Original) The pinwheel as recited in claim 1, further comprising a finger driven mechanism for spinning the hub.

10. (Original) The pinwheel as recited in claim 1, further comprising an illumination feature on one of the hub and the protrusions to provide a light effect.

11. (Currently Amended) The pinwheel as recited in claim 10, wherein the illumination feature includes one of a light and a reflector.

12. (Original) The pinwheel as recited in claim 1, further comprising a sound device, which plays sounds in accordance with motion of the hub.

13. (Original) The pinwheel as recited in claim 1, wherein the candy item includes a lollipop.

14. (Original) The pinwheel as recited in claim 1, wherein the protrusions include candy items having different flavors or colors.

15. (Previously Presented) The pinwheel as recited in claim 1, wherein the protrusions include adjustable fan blades configured to permit a change in an angle relative to a central axis of a respective blade.

16. (Currently Amended) A pinwheel lollipop, comprising:

a hub having a plurality of spokes extending radially therefrom, each spoke comprising a candy item molded thereon;

the spokes forming blades for diverting air in an airstream such that when placed in an airstream the hub, spokes and candy items rotate relative to an axis which supports the hub; and
a ratchet mechanism, which holds the hub in a position.

17. (Original) The pinwheel lollipop as recited in claim 16, wherein the hub is formed into a figure or promotional item.

18. (Original) The pinwheel lollipop as recited in claim 16, wherein the hub includes a detachable figure or promotional item.

19. (Previously Presented) The pinwheel lollipop as recited in claim 16, wherein the spokes include adjustable fan blades configured to permit a change in an angle relative to a central axis of a respective blade.

20. (Original) The pinwheel lollipop as recited in claim 16, further comprising a light for illuminating the hub and the candy items.

21. (Canceled)

22. (Original) The pinwheel lollipop as recited in claim 16, further comprising a motor for spinning the hub.

23. (Original) The pinwheel lollipop as recited in claim 16, further comprising a finger driven mechanism for spinning the hub.

24. (Original) The pinwheel lollipop as recited in claim 16, further comprising an illumination feature on one of the hub and the protrusions to provide a light effect.

25. (Currently Amended) The pinwheel lollipop as recited in claim ~~24~~16, wherein the illumination feature includes one of a light and a reflector.

26. (Original) The pinwheel as recited in claim 16, further comprising a sound device, which plays sounds in accordance with motion of the hub.

27. (Original) The pinwheel as recited in claim 16, wherein the candy items have different flavors or colors on each spoke.

28. (Currently Amended) A pinwheel comprising:

- a first axis, which supports a movable hub;
- a plurality of protrusions connected to the hub and radially extending therefrom;
- candy items attached to a plurality of the protrusions; and
- a ratchet mechanism, which holds the hub in a position.

29. (Cancelled)

30. (New) A pinwheel comprising:

- a first axis, which supports a hub;
- a plurality of protrusions connected to the hub and radially extending therefrom;
- candy items attached to a plurality of the protrusions; and
- a handle disposed substantially transverse to the first axis to permit the hub, plurality of protrusions and the candy items to rotate about the first axis, wherein the protrusions include adjustable fan blades configured to permit a change in an angle relative to a central axis of a respective blade.
